

New-look website shines

SUNSHINE Coast-based beauty empire Shine Beauty has just launched its new-look website, which has been formatted to make choosing the right treatment for you a breeze. Weekly website specials also have been introduced to help customers save money, as well as ensuring the treatment rooms are used more effectively. Founders Joel and Tania Turner have spent the past 12 months perfecting the website, which also features more about the company and how it has evolved. To get your beauty fix, or to scope out what treatments may be for you, head to: www.shinebeauty.com.

Make-up is right on target

MAKE-UP guru Napoleon Perdis has jumped on the celebrity bandwagon, joining the likes of Stella McCartney and Josh Goot in stocking wares on the shelves in Target. Napoleon NP Set is the latest addition to Target's beauty initiative, Designers for Target, and is the first designer range in the cosmetics department. The range is defined as "glamour on the go" and features rich colours, cool trends and fix-it products that are easy and fun to use.

Pregnant pampering

RIPPLE proprietor Alison Shaw knows that expectant mums need all the care and attention they can get. That is why the beauty service is offering two types of pregnancy massage packages: the two-hour package (\$170); and the one-and-a-half hour package (\$120). Both sessions include a full body aromatherapy massage, foot reflexology massage, peppermint and lime-scented foot soak, an organic green clay and cucumber cleansing face mask, hot steamed towels, nourishing moisturiser and a gift from the Ripple range. Benefits include relief from muscle spasms and cramps, reduced stress, and maximised breathing capacity. And the best part is, they come to you! Call 0438 567 906 or visit www.ripplemassage.com.au.

Manage your hair in style

GET salon-style hair at home with Goldwell's latest range of haircare products called dualsenses. The range features six different lines including: colour; colour extra rich; rich repair; ultra volume; curly twist; and scalp regulation. So there is something to help manage every hair type. The secret ingredient in the new range is instant microfluid technology, which ensures faster, more even distribution of active ingredients. If, like me, you are struggling with frizzy hair in the humidity, then the dualsenses rich repair may be for you with its pashmina silk proteins designed to repair dull, dry, stressed or damaged tresses. And it smells great, too, with the rich scents of vanilla, cedar, sandalwood and jasmine.
